Frontend Developer with 5+ years of experience specialising in Angular (v7–v19), TypeScript, and RxJS. Proven track record delivering scalable, WCAG 2.1-compliant enterprise web applications for clients in print technology and telecommunications. Experienced in UI delivery — from greenfield architecture and migration to reusable component design, REST API integration, and unit testing. Comfortable working in cross-functional Agile teams.

SKILLS

Angular (v7– v19), TypeScript, RxJS, JavaScript, HTML5, CSS3/ SCSS, REST API Integration, Angular Material, Bootstrap, Jasmine, Karma, Lazy Loading, PWA, Angular Signals, Responsive Design, WCAG 2.1 Accessibility, Azure DevOps, Git/ GitLab, Agile/ Scrum, Jira, IndexedDB, MongoDB (basics), Node. js, NgRx (familiar), Micro- frontend/ Nx (familiar)

WORK EXPERIENCE

Developer III – Software Engineering UST Global

02/2024 – 05/2026

- Built 3 enterprise Angular applications for a print technology client — migrated one from Angular 2 to Angular 18 and developed two greenfield apps totaling 10+ features.
- Built a reusable Angular component library (15+ components); created a demo app to showcase usage and use cases, and used it to develop an enterprise application.
- Delivered UI across an average of four features per project that had one-week sprints; implemented complex auxiliary routing and multi-level sub-feature flows.
- Implemented PWA with IndexedDB for offline data persistence; integrated REST APIs with robust error handling and Jasmine/Karma unit test coverage.
- Triaged and resolved production issues raised by client stakeholders — high-priority bugs addressed within 48 hours; managed CI/CD deployments via Azure DevOps pipeline.

Technology Analyst Infosys Ltd

01/2023 – 02/2024

- Led code reviews of minimum four PRs per sprint for a team of five developers, enforcing TypeScript best practices and client-specific code quality checklists.
- Delivered features for a user account management platform for a US-based communications client; managed structured 2-week Agile sprints.
- Drove root cause analysis on production issues and coordinated fixes with QA and backend teams to ensure minimal impact to live users.
- Facilitated sprint planning and retrospectives; tracked all tasks, bugs, and user stories in Jira.

Senior Systems Engineer Infosys Ltd

08/2021 – 12/2022

- Resolved 20+ WCAG 2.1 accessibility issues, covering color contrast, ARIA labels, keyboard navigation, and focus management across complex UI components.
- Built accessible Angular UIs aligned with business and industry accessibility requirements; collaborated closely with QA teams for pre-production validation and client sign-off.
- Worked in Agile environment with daily stand-ups and sprint ceremonies; tracked tasks and defects in Jira.

Systems Engineer
Infosys Ltd

08/2020 – 07/2021

- Developed client-side Angular applications with TypeScript across multiple sprints; contributed to REST API integration and GitLab-based version control workflows.
- Improved accessibility and user engagement across client platforms; applied Agile methodology and participated in daily stand-ups and sprint planning.

Systems Engineer Trainee
Infosys Ltd

08/2019 – 07/2020

- Completed Infosys onboarding programme in MEAN Stack technologies (MongoDB, Express, Angular, Node.js).
- Built a fully functional real estate agency website as a capstone project using Angular, TypeScript, HTML, CSS, Node.js, MongoDB, and Git.

EDUCATION

B.Tech — Electronics & Communication Engineering

Marian Engineering College • GPA: 8.42

01/2015 – 01/2019

Higher Secondary Certificate

Kendriya Vidyalaya No. 1 • GPA: 8.86

01/2014 – 01/2015

AWARDS & SCHOLARSHIPS

Prime Minister's Scholarship Scheme (PMSS)

Ministry of Home Affairs, Govt. of India
